

Tic-Tac-Toe Run

Organization

- The players will be set up into 2 teams and will be given 3 pinnies each to carry.
- One by one, each team will send out 1 player to put a pinnie on one of the cones. If the cone already has a pinnie on it the player must select a different cone.
- If the pinnies are all placed on the cones and there isn't a winner, the fourth player in line will run to the cones and move one of their pinnies that are already down onto a new cone. This process will continue until a winner is found.
- The goal is to get 3 pinnies of the same color in a row.

Set up

Total Duration = 10 minutes

- Total Grid Size = 3 yards width x 3 yards length, starting cones 10 yards away from the grid
- Number of Players = 12 - 16 players, split into 4 groups
- Number of Soccer Balls = No Soccer Balls
- Number of Goals = No goals

Skill Focus

- ⇒ Social-Emotional - fun, peer learning
- ⇒ Physical - speed, agility, quickness
- ⇒ Psychological - awareness, listening skills

Progressions

- ⇒ Add a ball in for players to dribble when they drop a pinnie on the cone.
